Abstract not available for AU2003282415

Abstract of corresponding document: **WO2004047103**

The recording medium includes a data structure having a clip stream file and a clip information file associated with the clip stream file. The clip stream file includes at least video data for a still image, and the clip information file including at least an entry point map. The entry point map includes an entry point and the entry point provides at least an address of the still image.
